

to keep out a certain amount of rubbish -

Yours truly

Granville

J. J. Will you send on the two enclosures to the Duke of Buccleugh to Hyde by the bearer. as the Duke of Buccleugh's signature might be obtained - I send you his note in answer to one from me, in which I was only able to tell him of Letoi and Lord Brenton's subscription.

Perhaps if you were to hint that £10,000 ~~£2000~~ was promised, he might do something more becoming the signature to their letters -
The Building Committee have

good
a number of names as possible - the Bank will

pick out of these signatures, those names they prefer

as their security for the 200,000 £. which will have to

be offered to the 2^d letter. I believe there will be no

great practical delay in ordering the Building from the time occupied in getting these signatures, as the preparation of the Building contract will take time -

Dr. Hayfair has been with me this morning,

is very sanguine about the objects which will be substituted -

He says we are sure of getting a great map of excellent things, but he is afraid that it will be more difficult
