

I apprehend that Lewis would not
have opened his paper if you
looked into the objection: he
found that there was really a con-
fide question: the true is that
you may spend upon any objection
& submit it if as I suppose
it will appear that the objection
is in many to submit to
objection: to a public spirit &
good.

Mr. to by the rights of any claim

I understand. I will be
to connect with Lewis before I
anything is the matter. I have
for however many I will so
anything is it especially before my
return.

In yours very sincerely
