

Department of New Materials &
therefore I will not leave it till
the work is being well done & to
some extent executed. I fear
therefore that I must remain here
all next week. My address will
continue to be P.O. Bureau.

As I will be so long in returning
perhaps you will consider what
should be done for Ireland. This
month being the last for work, Mr
Wallace, or some body else should be
soon in the field.

Very truly yours
