

of the Q. Com. in force -

He says he is feeling very
in the city and some most
interesting objects - will be
sent from the city & country
around, they will require
2000 yds of 3000 space
The subscription amount
is yet. to only £260. but the
committee admit they
will not till more
understand how to
collect - perhaps town,
they will come up personally
they stated officially that
they considered the city

should subscribe £1000 -

and they will accept -
measures to collect that
sum eventually - the
whole population of the
in and around will be
interested & can be
back in support of the Ex.
and excellent measures
are being adopted

Nothing can make up the
great and good will of the
Bath people, but they are not
rich, and they have immense
trouble with them
through their clergy -
Haring
